

Wood from sustainably managed forests, 100% FSC certified

### OAK WOOD

Oak is a prized species for its beauty, quality, nobility and its longevity

It is ideal for engraving, accepts the tint well and allows for countless usages

### BEECH WOOD

The light wood of beech allows for high quality surface finish due to its closed pores structure.

It accepts the tint well and allows for countless usages

## Bring Nature Back in your Sales and Communication!

Discover our selection of wooden POS displays and get involved in an environmentally friendly way.

Very trendy and aesthetic, wood is a noble living material, of natural and vegetable origin, which can be recycled and recyclable

Draw attention and present your information in your own design: the high-quality, black table display chalk board style is ideal for individual labelling and design.

A bold black background provides contrast to white or brightly colored writing so the label is easy to read, even from a distance!

When you're done, it can easily be cleaned with a wet cloth so that you're ready to use it again and again

\* Black Boards suitable for water-based chalk markers

## Finishes and Customisation:

Our woods are previously treated and varnished with organic and plant-based varnishes.

They are also free of solvents and petroleum residues, for ecological and worker health reasons.

Depending on the species, it is possible to engrave or screen-print the supports using only solvent-free natural inks

## Wood Quality Information

Each type of wood has its own unique characteristics and aesthetics.

Where wane is in the wood, the appearance is darker. This is not a defect, but nature of the wood.

The grade of wood can be specified using a number of parameters such as knots, pitch pockets, wane, shake, split and check.

The parameters are assessed in visual sorting, known as appearance grading by PLEXIROM quality control team.

It is phytosanitary certificated to avoid any fungal attack, harmful pests and plant diseases. Insect damage is not possible in our wood due its heat treatment.
